INFUSION FOR LIFE

JIMIT MEDICO SURGICALS

(AN ISO 9001:2000 & CE CERTIFIED COMPANY)

About "JIMIT" :

(An ISO 9001 : 2000 certified company) "JIMIT" a quality driven organization. Started its manufacturing activities in year 1989 by most experienced professionals with object to serve medical industry with innovative state of art technology. European Standard (EN) are strictly adhere in entire manufacturing process. Most of the products are CE marked.

Infrastructure :

We have sophisticated manufacturing unit situated in 'green' environment. It is well equipped to manufacture & sterilize wide range of disposable medical devices in hygienic, clean room conditions. Research & Development is continuous process at "JIMIT". R & D improves quality with cost effectiveness in addition to development of new products.

Quality Standards :

We strictly adhere international standards. For utmost Quality Control. We have most sophisticated Laboratories in-house. Including MICRO-BIOLOGICAL, Chemical TESTING LABORATORIES under one roof. All tests are carried - out, documented & recorded as per international norms. Strict guidelines of ISO & CE are followed at every stage of process to ensure zero defect product.

PRODUCT GALLERY

I.V. Infusion Set - Vented
Solution administration set
In-built Air vent, Molded Drip Chamber,
Extra soft-Kink resistant tube
Molded Latex Bulb for Extra Medication
21 G vein needle.

I.V. Infusion Set - Delux
Solution administration set
Molded Drip Chamber,
Extra soft-Kink resistant tube
Molded Latex Bulb for Extra Medication
21 G vein needle.

I.V. Infusion set - Mitsu
Solution Administration set,
Molded Drip Chamber,
Extra Soft - Kink resistant tube,
Latex Tube for Extra Medication,
21 G vein needle.

Blood Administration Set
For Blood or its derivatives
Molded Drip Chamber with blood filter,
18 G vein Needle.

Scalp Vein Sets
Winged infusion set
Ultra - thin wall with sharp bevel needle,
Kink free PVC tube,
International colour coded.

I.V. Cannula
Designed for long term infusion.
WITH INJECTION VALVE (PORT)
PTFE CATHETER, LUER COCK.

Measured Volume Set
Designed for measured volume intravenous
infusion 100/150 ml. graduated cylindrical chamber
Micro needle in Drip chamber, Dual flow control.

Disposable Needle
Vein needle : Perfectly sharp bevel point
for pain less penetration
Silicone coating for smooth finish
international color coded hubs

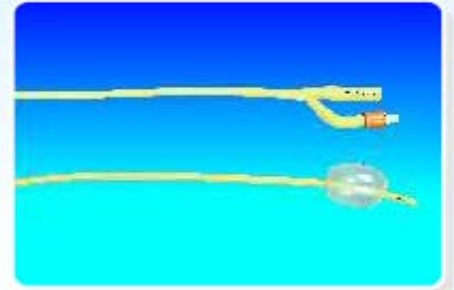

Infusion Bag
Made of medical grade, Non-toxic PVC
Auto Cleavable at 121°C
Sizes : 100 ml. to
3000 ml. Capacity.

Urine Collection Bag
made of medical grade PVC Sheet
Double Seal, with Non-return Valve,
Graduated to measure collected urine
Capacity : 2000 ml.

Urine Culture Bottle
EO - STERILE Ready to use
Perfectly Graduated
Capacity : 50 ml.

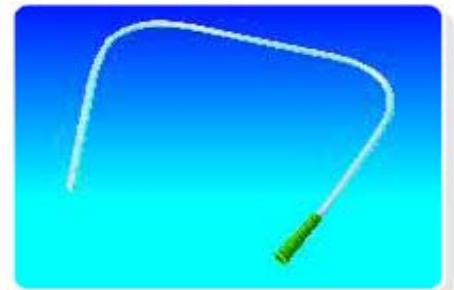

Foley Balloon Catheter
2-way made from natural latex
Silicone coated for smooth catheterization
form long - term catheterization
International color coded.

Male External Catheter
(Condom Catheter)
Designed to connect to Urine Collection
Bags without internal catheterization.

Urethral Catheter
Made of medical grade PVC tube,
with radio-o-paque x-ray detectable line,
for short term catheterization.

Nelaton Catheter
Made of medical grade PVC tube,
with radio-o-paque x-ray detectable line.

Gloves
(A) Surgical Gloves : Sterile
Made of Natural Latex, Micro Rough Finish
for better Grip. Packed in Paper Pouch.
(B) Examination Gloves :
Latex : Made of Natural Latex, Soft & sensitive,
Micro Rough finish for better Grip.
Plastic : Made of plastic Textured finish for sensitivity.

Cord Clamp
Designed to clamp umbilical Cord
Immediately after birth. Provided with
cord guide & security lock for safe remove
& to prevent re-opening.

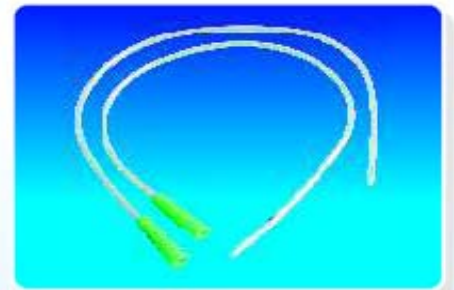

Infant Feeding Tube
For feeding infant & neonates,
Super smooth, Coned tip having two
lateral eyes at distal end,
Colour coded female luer mount.

Mucus Extractor
For aspiration of Mucus in newly born
babies to ensure free respiration,
Graduated Chamber, Suction Cap provided,
Super smooth Catheter with round tip
for trauma free insertion.

Ryle's Tube
For Patient under going long-term gastrointestinal
feeding, aspiration & intestinal secretion. Smooth
coned distal end with corrosion resistant S.S. balls
to assist the passage of tube during intubation.
with radio-o-paque x-ray detectable line.

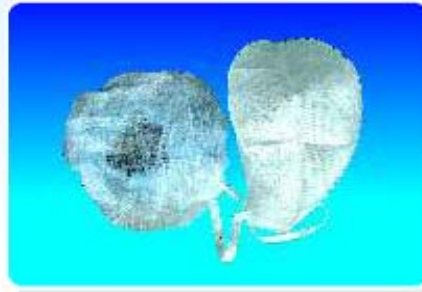

Suction Catheter
Designed for trachealbroncheal suction,
smooth finish Non irritant,
made of implantational tested PVC having
open distal end with one lateral eye,
with radio-o-paque X-ray detectable line.

SURGEON'S MASK

2/3 Layer, Non-woven material made on ultrasonic machine Pleated with Non-woven String Tie / Elastic.

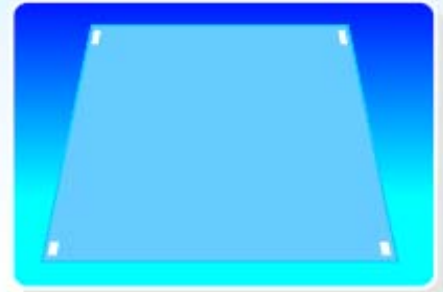

SURGEON'S CAP

A. Sontara

Made of Sontara : A unique material which is impervious and breathable (Air permeable)

B. Non-Woven

Made on ultrasonic machine

PHACO - TROLLEY COVER

EO - Sterile

Made of Transparent Poly material to cover the Phaco Machine / Instrument Trolley

Size : 100 cm x 100 cm

Shoe Cover

Disposable

Made of Non-woven fabric Ankle length.

Leg Cover

Disposable

Made of Non-woven fabric Knee length covers shoes & trouser bottom.

HIV Protection Kit

Consist of; Disposable Gown

Cap,

Mask,

Shoes/Leg cover,

Latex gloves.

SURGEON'S O.T. GOWN

Full Sleeve with Elastic Cuffs

A. Sontara

Made of Sontara : A unique material which is impervious and breathable (Air permeable)

B. SMS

C. Non-Woven

EYE DRAPE

Adhesive : 12cm x 10 cm With Drain Pouch & Eyelid Holders

A. Sontara

Size : 120 cm x 150 cm
100 cm x 75 cm

Made of Sontara : A unique material which is impervious and breathable (Air permeable)

B. SMS

Size : 100 cm x 75 cm
Made of SMS

C. Poly

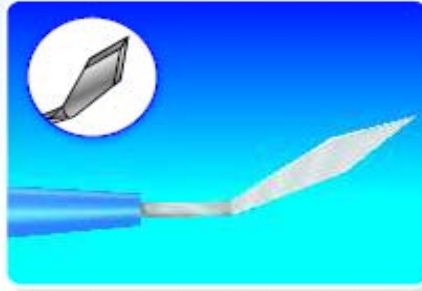

Size : 70 cm x 75 cm
Made of Poly

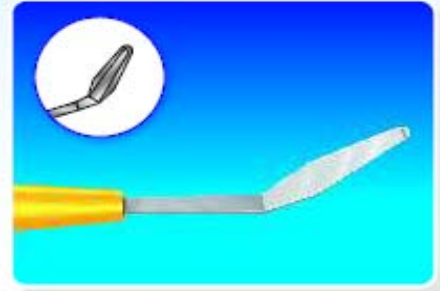

OPHTHALMIC RANGE

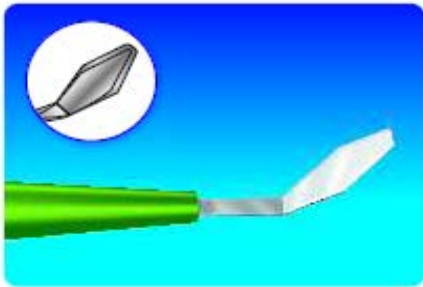

Lance Tip
Handle Microsurgical Knives
15° St & Angled Blades
for side port or first Scleral
incision.

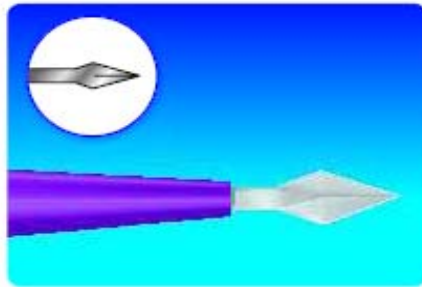

Keratome Slit Knives (Pointed Tip)
Handle Microsurgical Knives
45° St & Angled Blades
Available In 2.5, 2.8, 3.0, 3.2, 3.5 mm
for entry into anterior chamber or
phaco stab incision.

Crescent Knives (Tunnel)
Handle Microsurgical Knives
45 - Degree Angled. Bevel Up/down
For Scleral Tunnel Incision Or For
Making Groove In Sclera.

Enlarger Implant Blades (Blunt Tip)
Handle Microsurgical Knives
45° St & Angled Blades
Available In 3.0, 4.0, 5.0, 5.1, 5.2, 5.5 mm
for Enlargement of slit or
I.O.L. implant incision.

Mvr Needle Blades (Vetrio Retinel)
Handle Microsurgical Knives
Tip Blades
Available In 19, 20, 21 Gauge
for Retinal surgery or
water tight self sealing incision.

Ophthalmic Kit
Consolidated kit for
Phaco / Small incision surgery.
available in various options.

- Blades are made from finest quality Imported Steel Bars and Strips for optimum performance.
- Also available in form of Tips (without Handle).

"We have attitude for continuous improvement in product & system"

Quality Policy :

"We are committed to manufacture, sterilize & supply reliable medical devices of international standards at competitive rates within time frame".

Certifications :

1. ISO 9001:2000 Accredited by UKAS : United Kingdom Accreditation System.
2. World Most Stringent Quality Standard Laid down by European Union CE Mark in compliance with council directive 93/42/EEC.
